ZEN^{IT} 1.0

EXPANDING One Software, Total Connection
AUTOIMMUNITY

All you need to manage your autoimmunity lab.

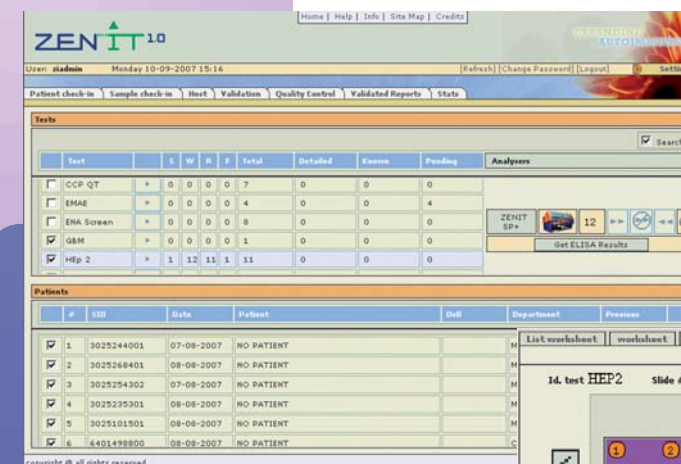

All your needs in just one click.

ZEN-IT is the A. Menarini Diagnostics solution for the management of the workflow, a comprehensive management software dedicated to Autoimmunity Labs.

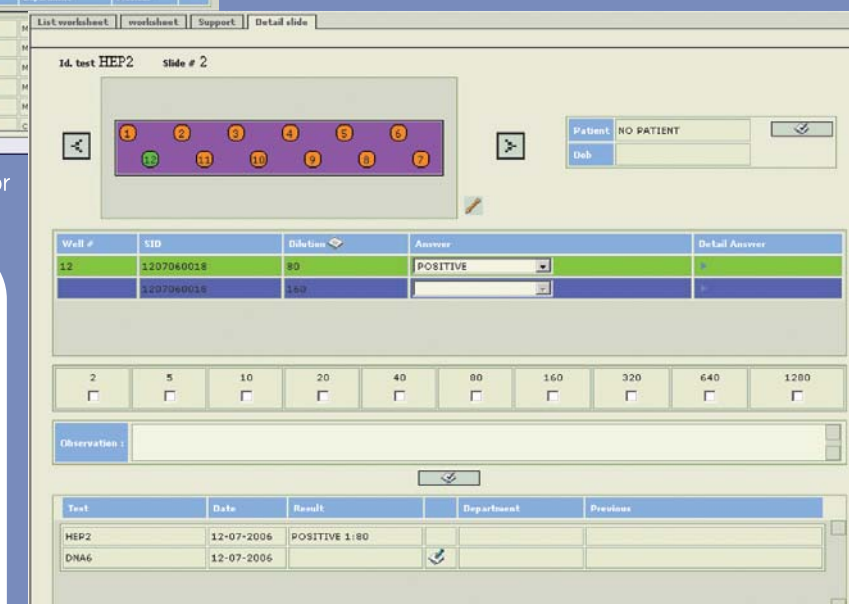

One software for Total connection. ZEN-IT displays features related to the type of access used based on the user currently logged to the system. All the users of a system access the same machine (web application server) and the same database: **everything is under control, real time.**

MAJOR FEATURES

- Connection to Host
- Connection to Autoimmunity Lab Instruments (IFA and ELISA)
- Patients database
- IFA and ELISA automated management
- Different level user access
- QC Management

Home page operator

IFA report system: the user, while reading the slides, can enter the results in the software and immediately program further tests
